Steve, attached is the Community Involvement Plan your contractor requested at the last meeting. I believe this plan has been updated, not sure. I will forward you the latest plan when I find it.

Additionally, we need to have a community meeting near the Site before we begin actual RI/FS field activities, preferably before the beginning of the removal action. We should schedule a conference call this week to discuss the meeting and upcoming deliverables. Please let me know what works for you and the PRP.

Also, please review the "order" concerning "dispute resolution" and "financial assurance" and be prepared to discuss these issues for the conference call. Based on the scoping meeting, we should begin discussions now to avoid any delays in the investigation of the Site. Thanks.
